challenges

JOB OBJECTIVE

Second-year Computer Science student at the University of Annecy, specializing in application development, design development and validation. I am seeking an internship to apply my skills in software development in the IT sector to innovate projects from May 6, 2026, to June 28, 2026.

WORK EXPERIENCES

○ Team Project - Web application & DataBase management

October 2025 - January 2026

- Developed a Laravel web app in a 4-person team
- Designed data models and BPMN diagrams
- Implemented cryptography and communication modules
- Created Power BI dashboards using Scrum

○ Spring Semester, Team Project - ANNECY/FRANCE

May - June 2025

- Order management application for a delicatessen (C#, WPF/XAML)
- Designed and developed an interface for order processing and stock management
- Order tracking: ongoing, completed, and weight management of products
- Completed in a team of 3

○ Fall Semester, Team Project - ANNECY/FRANCE

December 2024

- Development of a 2D video game in C# (Mario Bros type)
- Created a platform game with animated sprites, collision handling, scrolling background, and gameplay logic

TECHNICAL SKILLS

- C# 
- Visual Studio 
- Postgres SQL 
- Git / GitHub 
- HTML / CSS 

LANGUAGES

- French: Native
- English: Upper Intermediate (B2)

MISCELLANEOUS

- BIA (aeronautical initiation certificate)
- Gym / Padel / running beginner

SOFT SKILLS

- I am reliable and consistent in completing tasks and meeting deadlines.
- I am a strong communicator, both in writing and speaking.
- I am an excellent team player, able to cooperate and contribute to group goals.
